

Tag로 hide product

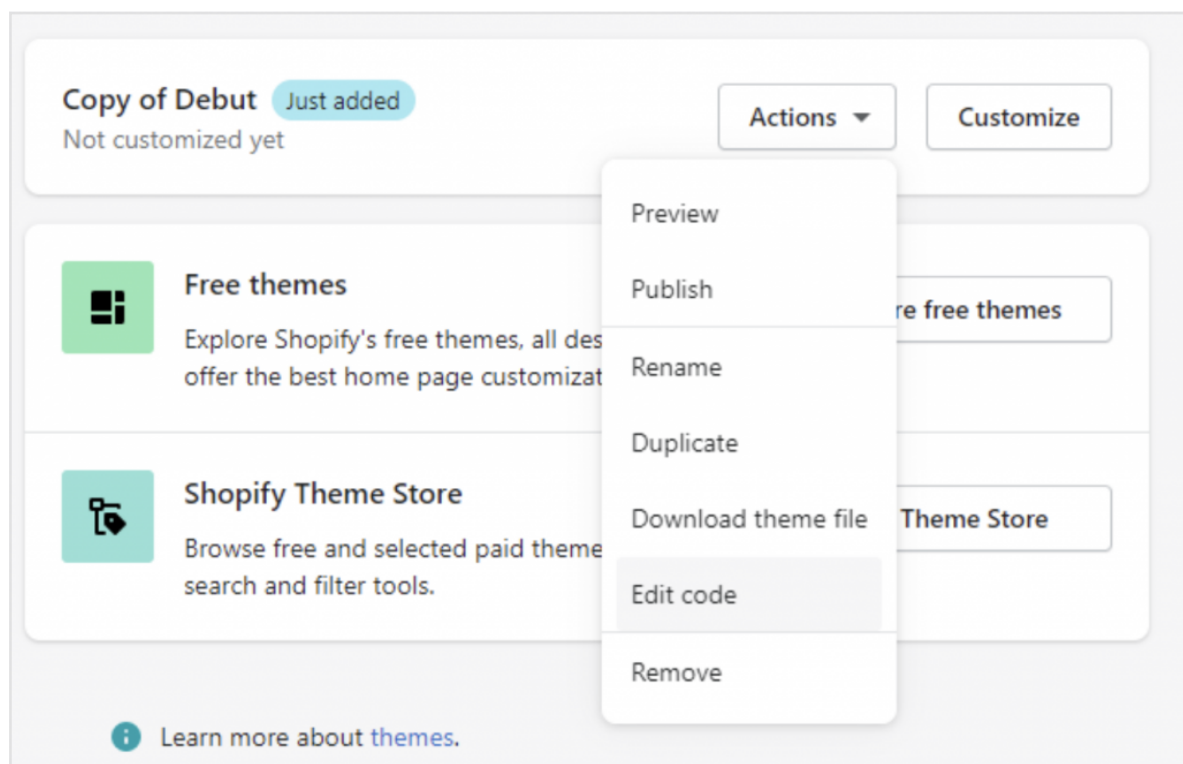

Step 1

Create a copy of the theme in the Online Store section.

Step 2

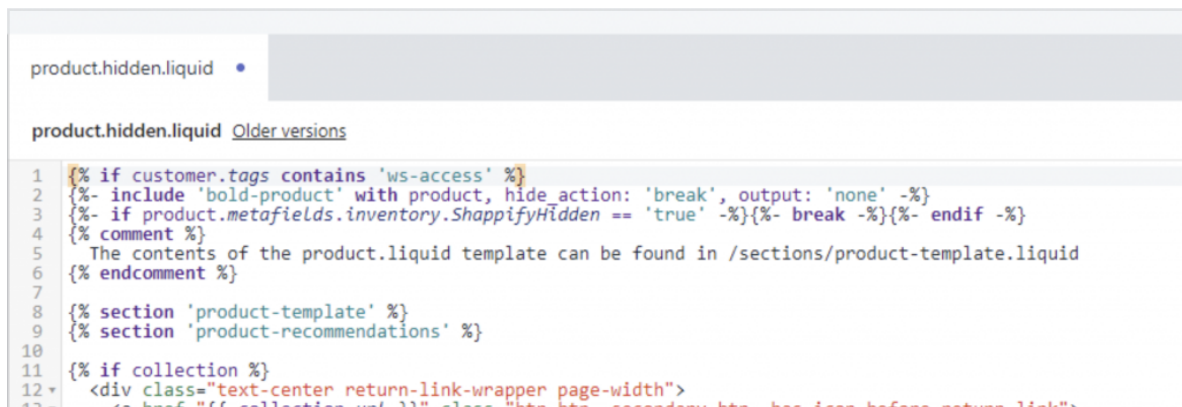

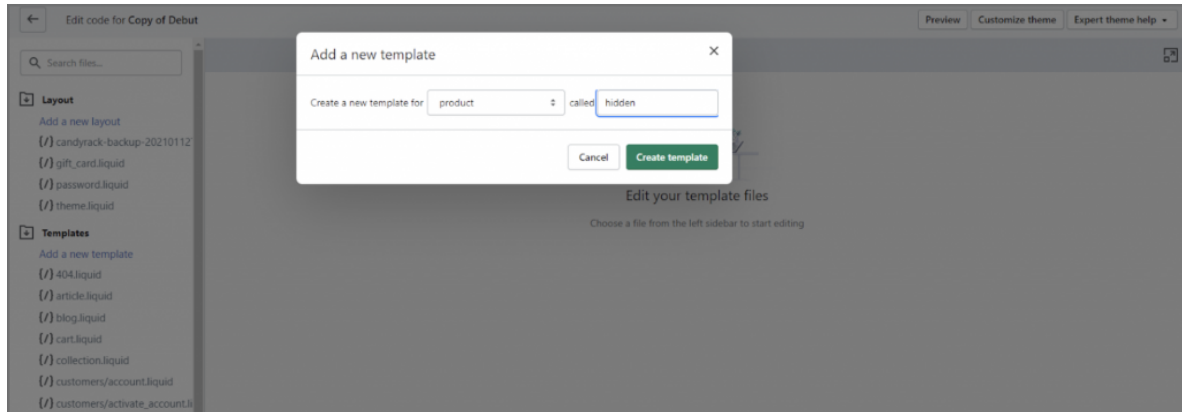

click **Actions** and then **Edit Code**.

Step 3

Add a new product template called **hidden**. This will create

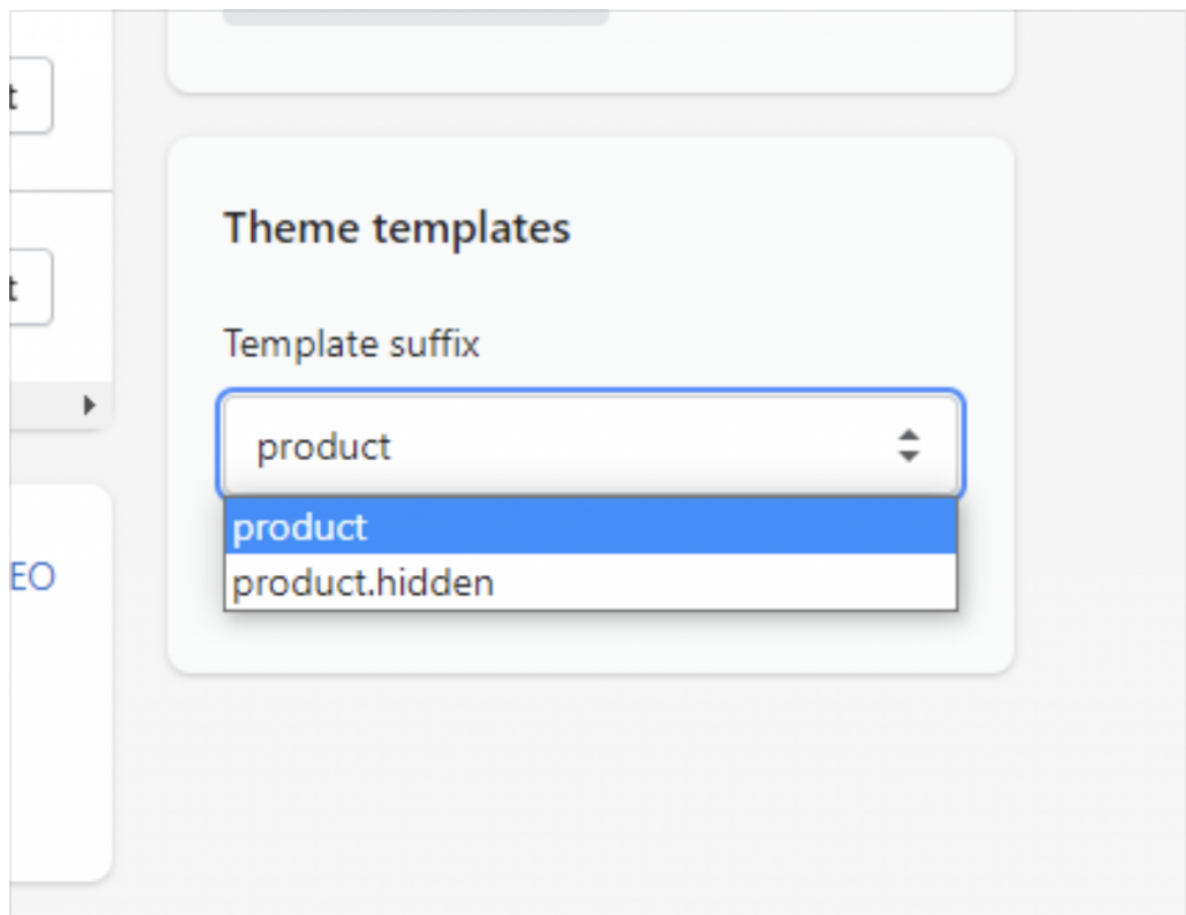

the **product.hidden.liquid** file.

Step 4

At the end of the file, close with the following code and save it.

```
{% else %}
  <script>
    window.location.href = '/collections';
  </script>
{% endif %}
```
